

Comparing Iran’s Nuclear Compliance: INFCIRC/711 and GOV/2008/4

How close is Iran in complying with the Iran-IAEA work plan?

	IAEA PROVIDES QUESTIONS	MEETING IN IRAN TO DISCUSS		CLOSURE	
	INFCIRC/711//GOV/2008/4	INFCIRC/711	GOV/2008/4	INFCIRC/711	GOV/2008/4
Plutonium	July 23	July	July	August 20	August 20
P1/P2	August 31	September 24-25 mid-October	September 24	November	November
HEU Contamination	September 15	2 weeks after P1/P2 closure (mid-November)	December 10-12 December 15-16	January	January 8
Uranium Metal	INFCIRC/711: Iran agrees to facilitate comparison of sections of uranium metal document after which IAEA will close issue. GOV/2008/4: Iran provides copy of document to IAEA; IAEA awaiting information from Pakistan.				
Po-210	September 15 after all other questions closed.	2 weeks after HEU Contamination/U Metal talks (end of January)	January 20-21	March*	February 22
Ghachine Mine	September 15	2 weeks after Po-210 closure (February 22)	January 22-23	April*	February 22
Alleged Studies	INFCIRC/711: Iran finds allegations as “baseless” and “political motivated” but will review IAEA-provided documents. GOV/2008/4: Iran finds allegations as “baseless” and “fabricated”. Minimal responses on two issues following meetings on January 27-28 and February 3-5; IAEA awaiting further Iranian responses.				

*These dates were Carnegie estimates for possible issue closure, based on the text of INFCIRC/711. The IAEA indicated in GOV/2008/4 that it no longer considered the Po-210 and Ghachine mine issues to be outstanding.
